

Syllabus of Hibernate

1. Introduction to JPA
 1. Object/Relational Mapping
 2. Mismatches Between Relational and Object Models
 3. The Java Persistence API
 4. Hibernate
 5. Architecture
 6. Entity Metadata
 7. The Entity Manager
2. Single-Table Mapping
 1. Annotations
 2. JavaBean Standards
 3. Property, Field, and Mixed Access
 4. Table and Column Mapping
 5. Primary Keys and Key Generation
 6. Type Mappings
 7. Temporal and Enumerated Types
 8. Embedded Types
 9. Converters
3. Mapping Associations
 1. @Embeddable Types
 2. Entity Relationships
 3. @ManyToOne Relationships
 4. @OneToOne Relationships
 5. @OneToMany Relationships
 6. @ManyToMany Relationships
 7. Eager and Lazy Loading
4. Entity Managers
 1. Putting Entities to Work
 2. persistence.xml
 3. Entity State and Transitions
 4. Managing Transactions
 5. Persistence Operations
 6. Creating Queries
 7. Named Queries
 8. Query Parameters
 9. Native Queries
 10. Stored-Procedure Queries
5. JPQL
 1. The Java Persistence Query Language
 2. HQL and JPQL
 3. Query Structure
 4. Path Expressions
 5. Filtering
 6. Scalar Functions
 7. Using Native Functions
 8. Operators and Precedence
 9. between, like, in

10. is null, is empty
11. Ordering
12. Aliases
13. Grouping
14. Aggregate Functions
15. Joins
16. Fetch Joins
17. Constructors
18. Updates and Deletes
6. Persistence Components
 1. Encapsulating Persistence Logic
 2. Design Considerations
 3. Testability
 4. Transaction Control
 5. Exception Handling
 6. Generic Types
7. Advanced Mappings
 1. Inheritance Strategies
 2. Single-Table Strategy
 3. Joined-Table Strategy
 4. Table-Per-Concrete-Class Strategy
 5. Querying Over Inheritance Relationships
 6. Type Identification with .class
 7. Secondary Tables
 8. Composite Primary Keys
 9. @IdClass and @EmbeddedId
 10. Derived Identifiers
 11. @ElementCollection
 12. Default Values
 13. @Version Fields
 14. Cascading and Orphan Removal
 15. Detachment and Merging
 16. Hibernate Extensions
 17. The @Type Annotation
8. Validation
 1. JSR-303 Validation
 2. Constraint Annotations
 3. Validation Modes
 4. Validation Groups
 5. Handling Validation Exceptions
